

WHAT WILL STUDENTS STUDY

- Students will study an enhanced sports curriculum based on their personal requirements
- Students will study the state Board curriculum too till the 10th standard
- Students will be provided extra co-curricular activities like the computer, music, arts and crafts, and life skill development
- Students will be given opportunities to continue/complete the academic session even after leaving the Sport Academy for higher level (State or National Sports Academy)

WHERE MIGHT SPORT ACADEMY STUDENTS END UP?

- Recreation, Physical activity, Sports and related health fields provide genuine career pathways, not only into the professional ranks
- Sports Academy introduces students to valuable and marketable skills in organization, enterprise, leadership, and communication
- Students will be positioned to make a strong contribution to their community as physical activity and sport provides a major context for both voluntary and paid work
- There is a large range of careers in sports as more people play and watch sports. Women are moving into many of the high profile sport-related professions
